Snowflake COPY INTO

Snowflake Documentation

- [COPY INTO <table>](#)
- [COPY INTO <location>](#)

⌃ COPY INTO <location>

```
1 COPY INTO @<Stage_Name>/<Folder_Name>/<File_Name>.<File_Extension>
2     FROM <Database.Schema.Table/View> OR (<Query>)
3     OVERWRITE = TRUE -- Overwrites any existing file with the same name in the same
  location
4     MAX_FILE_SIZE = 5368709120 -- Increases the File size limit
5     SINGLE = TRUE -- Creates a single instead of multiple smaller files
6     HEADER = TRUE; -- Includes column names as header row
```

⌃ COPY INTO <table>

```
1 COPY INTO <database_name>.<schema_name>.<table_name>
```

```
2        FROM @<Stage_Name>/<Folder_Name>/<File_Name>.<File_Extension>;
```
